

# Stamp-Manager

## How does Stamp Manager work?

*Use Stamp-Manager, the only mobile stamp software and exchange platform!*

### Your wide range of possibilities:

- **Scan your stamps** and get background information immediately!
- Create your own scrapbook!
- Put your scrapbook up for sale!
- Mark existing stamps from our catalog with “Search”, “Have” or “Offer”.
- Create a wish list for your missing stamps!
- **SPECIAL:** Submit price proposals for stamps yourself!
- Rate the community price proposals with a thumbs up or down!
- Exchange ideas with other Stamp fans!
- **Link to the stamp store:** every stamp from our catalog can also be found on [stamp.store.com](https://stamp.store.com) at the same time. The place where you can buy thousands of stamps from our professional stamp dealers!
- ➔ Simply click on “Stamp-Store” under the respective stamp and you will come to the website. You can automatically log into the Stamp-Store with your App-Userdates. Also your albums will be synchronized!

# Stamp-Manager

## Start with filling your albums:

Mark existing stamps from our catalog with the buttons **search** , **offer**  or **have**  to fill your albums, and you will always have your personal stamp album with you! As a **PREMIUM MEMBER** you can also add photos from your own private albums and offer them for exchange or purchase in the app!

## Catalog

You can search for stamps in our **constantly growing database** in the catalog. In the "Search" field you can either enter the desired search term directly. In addition, you can use the "Filter" and "Sort" buttons to define your selection in more detail.

In the **PREMIUM FUNCTION** you can use the symbol  to load your selection, up to 5000 stamps at a time, directly into one of your albums. Useful if, for example, you collect or search for entire years or countries!

## Scan & Match

With the help of this feature, you can find out more information about your personal stamps using your mobile phone camera. **CAUTION:** Be sure to take a sharp, well-lit photo directly from above the stamp. The stamp should not appear warped, but rectangular. You now have two options:

**Auto Scan:** Suitable for single stamps on a calm, one-color background

**Manual scan:** Possibility to photograph several stamps and cut out the desired stamp. When you have marked the desired stamp, click on "Scan" or on "RESET" to take a new photo.

In the **PREMIUM FUNCTION**, you have an unlimited number of scans at your disposal!

# Stamp-Manager

## Our database:

In 2021 alone, we added over 60 countries and over 400,000,000 stamps and are expanding them regularly. Nevertheless, it can happen that a region, a year, certain special stamps or own stamps are not available and therefore cannot be found. If you encounter this problem that the stamp cannot be found **despite sufficient lighting and sharpness of your recording, please contact us at [support@stamp-manager.com](mailto:support@stamp-manager.com). We always strive to keep improving the results!**

## My Albums

You can find your albums here:

**"My stamps"**: All stamps that you have marked with "I have" appear in a wonderful way under "See more". In the **PREMIUM FUNCTION** you have the "Filter" button at the top right, with which you can sort and organize your album even better!

**"Offer list"**: All stamps appear here that you have marked with "Search". Other users will see that you are looking for this stamp and can write to you.

**"Wishlist"**: Here you will find all stamps that have been marked with "Search". Other users can see that you are looking for this stamp and offer it to you.

As a **PREMIUM FUNCTION** you will find the button "Private Collection" at the top. Here you can add photos from your personal albums.

## Community

Here is the place where you can view other users' **private albums** as well as find **active users**.

You can browse through the private albums as well as view the search, have and offer albums of the respective user.

If you are interested in an album or want to get to know other users, **you can send messages to each other!**

Simply click on the username and "send message". You will automatically receive a push notification when you receive a message or an answer and a red stamp appears on the community symbol.

# Stamp-Manager

For just under \$ 4.20 per month (annual subscription) you not only support the ongoing development and preservation of the postage stamp as a cultural asset, you unlock a multitude of unique options!

- Upload your **personal album and sell it!**
- **Unlimited size** of your albums!
- Unlimited scan & match function.
- **Batch adding** function: upload up to 5000 stamps at once!
- Filter albums by country and year!
- **No advertising!**

Dear user, we hope we were able to give you a good overview of our app? Should you have any further questions or requests, we are at your disposal of course, personally at [support@stamp-manager.com](mailto:support@stamp-manager.com).

Your Stamp Manager Team!
